Add Custom Fee to WooCommerce V1.6.1

This plugin helps admin to add some additional fee to Woocommerce cart. You can add your custom amount and label for the fee to be added in cart. Also can add tax and change tax class if you want. It also provides a feature to apply custom fee only if cart total is greater then minimum amount set.

Features:

Add custom fee to what ever amount you want.

Set label for additional fee.

Enable or disable tax for fee.

If tax enabled; select tax class you want to apply.

Enable or disable this Additional Woocommerce fee functionality

You can set minimum cart amount after which you would like to apply Custom Fee.
