Adobe Zii 5.2.6 is a great tool to help you perfectly activate/crack all applications of Adobe CC 2020 with one click. Adobe Zii Patcher was made by T.N.T group, only supports the Mac platform.

When click 'Patch' to crack, it will automatically find all installed Adobe CC in the Applications folder and patch the amlib.framework file; if you use another crack method drag & drop, it will manually patch any Adobe applications you drop on Adobe Zii 2020. The focus is, Adobe Zii only takes up very little memory, and has a pretty smooth and clean cracking process (just drag & drop). Especially, after activation, the use and running of Adobe applications are very stable.

Adobe Zii Mac can automatically find all installed Adobe CC in Applications folder and patches amlib.framework. And it's also able to manually patch any Adobe application you drop on this patcher.

Compatible with all products of Adobe CC2020

Installation Notes or Process:

Disable your Internet connection.
Install Adobe CC product as trial.
Run it once and close program.
Open Adobe Zii (for Adobe Acrobat Pro DC, you need to enter admin pass).
Click 'Patch' or drag Adobe app to finish cracking with one-click.
Done!
Some Problem Solution:

If you have Adobe products installed in a directory different from Applications please use the drag & drop mechanism
If you have Creative Cloud subscription for certain Adobe apps, you'd better not patch these products. Just patch the ones you have no license for
If you have trial active or expired after patching an app, nothing will change in Creative Cloud interface, and the program will start without any issues
For aesthetic reasons you may perform trial reset by running these two commands in terminal:
sudo killall ACCFinderSync "Core Sync" AdobeCRDaemon "Adobe Creative" AdobePCBroker node "Adobe Desktop Service" "Adobe Crash Reporter"

```
sudo rm -rf "/Library/Application Support/Adobe/SLCache/" "/Library/Application Support/Adobe/SLStore/" "/Library/Caches/"**  
"/private/tmp/zx"* "~/Library/Preferences/Adobe/"**
```
