Description

AutoCount Payroll Trial Version Free Download

AutoCount Payroll Trial Version With the objective to estimate tax deduction more accurately?, LHDNM has launched PCB 2009 calculation to replace PCB 2004 schedule. In new PCB 2009 calculation, employee who earn monthly remuneration below RM10,000 need to contribute an additional 20% of tax if compare to previous PCB schedule. To avoid over deduction of PCB, LHDNM allows employee more tax relief along with the new tax exempted rules on certain allowances when contribute monthly PCB.

Install Firebird database then install AutoCount Payroll Trial, follow the instructions on screen to complete the installation
