Description

Avira Phantom VPN Free Download

Avira Phantom VPN V1532302782-1674547043 creates an encrypted tunnel between your device and a remote VPN server operated by Avira. After the VPN client and VPN server have verified each other as authentic, all incoming and outgoing traffic is routed through that tunnel and your data is encrypted. Avira Phantom VPN Pro enables you to choose a custom location, giving you access to geo-restricted content. By picking one of our 150 servers in 37 countries ...

Avira Phantom VPN secures your data, anonymizes your surfing, and unblocks geo-restricted websites. With one click, our private VPN dodges ISP tracking by securing your connection via a fast proxy server. Our VPN technology is the easiest way to enhance your privacy and WiFi security wherever you are.
