Binbo?a Bal Vector Logo Free Download

Binbo?a Bal is a honey producer company in Turkey. The company was founded nearly 50 years ago, in 1973. Thanks to the knowledge of the beekeeper family's from Kozan about honey-producing, the company has succeeded in the sector in a very short time. Beekeepers from Kozan achieved great work due to establishing the Bal Agriculture Sales Cooperative in 1973. It continues to produce natural and high-quality honey in the Kozan district and have a packaging capacity of 6,000 tons/year.

Binbo?a Bal has managed to become the trusted address of healthy and natural honey. It has created beekeeping integrated facilities by breaking grounds in the sector. Besides these improvements, Binbo?a Bal also delivered honey in glass jars for the first time to the consumer and established Turkey's first honey analysis laboratory.

Having essential certificates such as ISO 9001 Quality Management, ISO 22000 Food Safety Management, and Halal Certificate, Binbo?a has proven its reliability when it comes to honey. And it also successfully represents Turkey and Kozan. Binbo?a Bal has taken a step towards becoming a honey centre in Turkey today. The company is based on customer satisfaction and continuous improvement. Binbo?a Bal has two main categories which are retail and out-of-home consumption. They produce kinds of honey in the retail segment such as Flower Honey, Pine Honey, Keven&Thyme Honey, and Tube Pine Honey.

On the other hand, there are honey types like Flower Honey, Bucket Flower Honey, Mini Glass Jar, and Picnic Honey in the out-of-home consumption segment. Binbo?a Bal's beekeepers are located on-site thanks to their activities in different regions and at high altitudes in Turkey and contribute to the product range's quality and diversity. The regions where they have been found have the world's richest flora with nine hundred and fifty plant species with nectar and pollen. Today, Binbo?a Bal is a respected honey producer company in Turkey.
