### Description

Biotropics Malaysia Berhad Vector Logo Free Download

Biotropics is involved in research and development, natural products discovery and lead identification, bio-prospecting, agronomic research, clinical research, commercial extraction as well as manufacturing and marketing of high-value natural health products for local and international markets. Biotropics's products include proprietary standardised extracts, all-natural dietary supplements, as well as ingredients for nutraceutical, functional food and cosmeceutical applications.
