Description

Contact Form 7 Subscribers V1.6 WP Plugin Free Download

The Contact Form 7 plugin is the most versatile and robust form plugin for WordPress. It is also a free, open-source plugin so you can start using it without any cost.

This free extension plugin named Contact Form 7 Subscribers gives you the ability to capture email/newsletter subscribers from your Contact Form 7 plugin forms into the Newsletter plugin with ease.

The integration either let's you specify predefined lists or let the users choose the lists that they want to subscribe to when they submit the form.

You can add subscribe checkboxes to new and existing forms. Simply edit the form, choose "Newsletters" from the "Generate Tag" dropdown and insert the subscribe checkbox shortcode/tag into the form for it to display. You can also put multiple subscribe checkboxes for different purposes on a single form.

For installation, activation and usage instructions, please read the Contact Form 7 Subscribers online documentation.
