Description

Cork V2.1.0 is a powerful admin panel template based on Bootstrap and SasS for all kinds of internal projects. It comes with a bunch of running j?vascript applications to build your next server application with ease.

The admin theme contains a collection of well-designed demos that can save you a lot of time and effort by not having to start from scratch. Cork Admin also comes with many reusable components such as buttons, maps, charts, widgets, forms, tables, and a set of elements that you can include in your project. The design is responsive and 100% responsive to mobile devices of all sizes.

With its apps, components and pages, the Cork Admin template is a great starting point for your next project.
