Cryptoniq Lite V1.3.1 – Cryptocurrency Decentralized Payment Gateway

CRYPTONIQ | CRYPTOCURRENCY PAYMENT PLUGIN FOR WORDPRESS (DECENTRALIZED)

Pay with BTC, ETH, TRX, DOGE. Shopping has never been so easy with cryptocurrencies.

Cryptoniq is a Woocommerce Payment Plugin, which allows to pay for products with cryptocurrencies. It was built with the vision to make the payments comfortable as much as possible.

COINS

Plugin supports ETH (For lite Version Only).

Get Pro version and use all Top coins:

Bitcoin (BTC)

Ethereum (ETH)

Tron (TRX)

Dogecoin (DOGE)

DECENTRALIZED PAYMENT SYSTEM

As we know, most payment systems require registration on their services, creating wallets there – controlling your money. Also charging withdrawal fees from you.

Cryptoniq uses a Decentralized Payment Method for payments. You just need to add your wallet addresses to plugin options panel and user will send the money directly to your address. It gives the following advantages:

Direct Payment

No 3rd Party Service

No Withdrawal Fees

POWERFUL ADMIN PANEL

Plugin has it's own Admin Panel, where you can set your options. It allows you to set wallet addresses, add coin prices for products, choose payment coins and much more...

PAYMENT BOX

There is a beautiful & responsive payment box with an awesome design, compatible with all devices. Make your payment with one click.

CURRENCIES

Plugin supports 169 currencies (USD, EUR...)
