Day of the Dead is a 2008 American horror film directed by Steve Miner and written by Jeffrey Reddick. It is a remake of George A. Romero's 1985 film of the same name, the third in Romero's Dead series,[3] and it is the first of two remakes of the original 1985 film; the other is Day of the Dead: Bloodline (2017). The film sees a virus outbreak that causes people to turn into violent zombie-like creatures. The project was principally shot in Bulgaria, with limited shooting in Los Angeles, California.

Day of the Dead was released direct-to-video on April 8, 2008, by First Look Studios. It was panned by critics.
