### Description

Drivermax Free Download

For Windows 11, Windows 10, Windows 8, Windows 7, Windows Vista, Windows XP and all Windows Server editions (both 64-bit and 32-bit).

#### Easy automated update

DriverMax supports automated installs, scheduled scans, and full device driver backups. It can be set to check for driver updates and download them for you at any time of any day, week, or month. You can find driver updates for 32-bit and 64-bit versions of Windows 11, Windows 10, Windows 8.1, Windows 8, Windows 7, Windows Vista, and Windows XP.

#### Increased PC productivity

Drivers are components that enable the proper functioning of the internal hardware or devices that are connected to the computer. DriverMax reduces system freezes and malfunctions, making for a better performance of your PC by serving you only with the best latest updates.

#### Latest version for more than 2,300,000 devices

DriverMax analyzes your existing drivers and provides the latest versions for over 2,300,000 devices. An intelligent and unique online self-learning technology ensures that only the most appropriate and recent versions are installed. The latest version of DriverMax also notifies and installs updates to various software packages that will improve Windows performance. These include Open AL, DirectX, C++ Runtime, Oracle Java, and more.

#### Maximum security for your updates

DriverMax automatically tests each new driver before installing it on your PC, ensuring its proper functioning. In addition, it backs up the current drivers and creates a system restore point, allowing a quick rollback of the installation. All controllers are scanned thoroughly for viruses and threats before they are provided to users.
