Description

Features:

Deleted, Formatted, Inaccessible, Partition Lost? Get All Your Lost Data Back Now!

EaseUS Data Recovery Wizard Professional, completely safe and effective hard drive data recovery software, provides reliable data recovery solution to save all kinds of data loss scenarios. It enables you to recover unlimited types of files from PC/laptop, hard drive, lost or raw partition, USB drive, memory card, digital camera, music player or other storage devices due to deleting, formatting, partition loss, partition inaccessibility, virus attack or other unknown reasons. Just need 3 simple steps to retrieve all your lost data.

Quickly and Easily Retrieve All Lost Files

After program starts, it will automatically perform 'quick scan' to quickly scan your hard drive, lost hard drive or storage device to find the lost files in just 1 minute. You can conveniently preview and locate the files you need. If you don't find the lost files you need, you can opt to click 'deep scan' to check your hard drive or storage sector by sector and find all the lost or hidden files.

Quick scan finds deleted files and lost files emptied from Recycle Bin.

Deep scan finds formatted, inaccessible or lost data completely.

Apply to All Data Loss Situation and Devices

The reliable hard drive data recovery software allows you to not only recover lost data from PC, laptop or hard drive, but also recover lost data from USB drive, SD card, digital device or other storage media.

Recover whatever you lost, such as images, documents, videos, music, emails, archives etc.

Any Data Loss Situation: recover data due to deleting, formatting, inaccessibility or raw, virus attacking, improper operation etc.

Recover data from PC, Laptop, hard drive, USB drive, SD/Memory Card, Digital Cameras or other storage media.

Support large hard disk.

Preview before Recovery

Specify your recovery file types before scanning for precise searching results.

Filter your search by file name, type, date to find files quickly and save time.

Preview the files to check their details and quality before you decide to recover them.

Easy to Use and Safe

The 100% safe data recovery tool allows you to recover lost data within only 3 simple steps. Follow the clear and brief instructions on the

interface, and no prior recovery experience required.

An interactive and user friendly interface for recovery process. Just 3 simple steps to get all your lost data back. 100% safe, it will never cause any damage to your device or overwrite your data.
