### Description

Embed Any Document V2.7.4 WP Plugin Free Download

Embed Any Document V2.7.4 – Embed PDF, Word, PowerPoint and Excel Files

Embed Any Document WordPress plugin lets you embed your PDF, Word, PowerPoint and Excel documents easily in your WordPress website. The plugin integrates Google Docs Viewer and Microsoft Office Online to display your documents on your website.

Embed Any Document works just perfectly with Gutenberg as well as the classic editor. Support for more site builders are on its way! It also lets you add a Download link below your embed optionally.

### ? Supported file types

Microsoft Word (DOC, DOCX, DOCM, DOTM, DOTX)

Microsoft Excel (XLS, XLSX, XLSB, XLSM)

Microsoft PowerPoint (PPT, PPTX, PPSX, PPS, PPTM, POTM, PPAM, POTX, PPSM)

Adobe Portable Document Format (PDF)

### Supported Viewers

Google Docs Viewer (PDF & Office Documents)

Microsoft Office Online (Office Documents Only)

Browser Native (PDF Only)

[PLUS VERSION] Google Drive Viewer (Stable and high performance viewer for documents hosted with Google Drive)

[PLUS VERSION] One Drive Viewer (Document viewer for documents hosted in OneDrive)

[PLUS VERSION] Box.com Viewer (Viewer for all documents hosted in Box.com with advanced security options to disable download button, add password, etc)

### ? Key Benefits of Embed Any Document WordPress plugin

Easy to Upload and Embed. Embed Any Document is integrated seamlessly into the Classic Editor and the Block Editor. With a click of 'Add Document' button it lets you upload documents and embed them.

No 3rd party plugin needed. The plugin uses Google Docs Viewer and Microsoft Office Online's services to display the documents in your website. You will not require any additional browser plugins to view the documents and you can expect maximum compatibility for your

documents.

Option to choose the viewer. You can choose between Google Docs Viewer and Microsoft Office Online to display your document. If one service is down, you can switch to another easily. EAD also supports browser-based viewer for PDF files.

Cross-browser compatibility. The viewers are mobile-ready and cross-browser compatible.

Clean and Minimal UI. Embed Any Document comes with a clean and clutter-free UI.

? Embed Any Document PLUS

The plugin comes with a premium version which allows you embed documents from Google Drive, Dropbox and Box.com.

By using Embed Any Document PLUS you can make use of the privacy options the cloud services (OneDrive, Google Drive, Dropbox and Box.com) offering you. You can remove download options, embed larger files, put passwords and even restrict the views.

?? Limitations of the plugin

Being entirely depending on third-party cloud services (Google Docs Viewer and Microsoft Office Online), Embed Any Document has its own limitations.

The embedded display does not support video/audio playback and animations/transitions in the embedded documents

Your document has to be available online for the embed views to work. The viewers do not support local host, intranet and files hosted in any password protected environment

The viewers can handle files of a limited size only (Maximum 8MB for Google Docs Viewer and 10MB for Microsoft Office Online)

The download and pop-out buttons cannot be removed – Any feature that comes by default with the viewers cannot be removed or altered
