### Description

#### GDPR Compliance WP Plugin Free Download

WP GDPR Compliance V2.0.22 is one of the most fast-growing GDPR plugins in the WordPress directory. Activating the plugin, you can have an opportunity to comply with the GDPR regulation. Here are some base features of the plugin given below:

One of the most prominent features is Forget Me Feature which allows your users to delete their data from the website.

Another important feature is data breach notification which allows your users to be notified of any data breaches.

The plugin allows you to have DPO form the exportation facility.

Using the plugin you can integrate major WordPress add-ons like contact form 7, gravity form, and WooCommerce, etc.

You can get some additional features like request data archive, newsletter unsubscribe, and cookie popup consent.

This is how the plugin assists website and webshop owners to comply with EU privacy regulations known as GDPR. Just install and start using the plugin.
