Ghostbusters: Frozen Empire is a 2024 American supernatural comedy film directed by Gil Kenan from a screenplay he co-wrote with Jason Reitman. It is the sequel to Ghostbusters: Afterlife (2021) and the fifth film in the Ghostbusters franchise. The film stars Paul Rudd, Carrie Coon, Finn Wolfhard, McKenna Grace, Celeste O'Connor, and Logan Kim reprising their roles from Afterlife, alongside Bill Murray, Dan Aykroyd, Ernie Hudson, Annie Potts, and William Atherton reprising their characters from the earlier films. Kumail Nanjiani, Patton Oswalt, Emily Alyn Lind, and James Acaster also join the cast. Set three years after the events of Afterlife, the veteran Ghostbusters must join forces with their new recruits to save the world in New York City from a death-chilling god who seeks to build a spectral army.

Following the success of Afterlife, Sony Pictures announced the sequel in April 2022, with Reitman returning as director. Co-writer and executive producer Kenan later took over as director from Reitman that December, with the latter staying on as a co-writer and co-producer. That same month, Rudd, Coon, Grace, Wolfhard, O'Connor, Kim, Murray, Aykroyd, Hudson, Potts and Atherton were all confirmed to reprise their roles. New cast members including Nanjiani, Oswalt, Lind and Acaster were announced in March 2023, with principal photography commencing that month and wrapping in June. Dario Marianelli was hired to compose the film's score, replacing Afterlife composer Rob Simonsen. This is the first film in the Ghostbusters franchise to be released following the death of the franchise's co-creator and Jason Reitman's father Ivan Reitman, who posthumously receives credit as a producer alongside his son and Jason Blumenfeld. The film is dedicated to Reitman's memory and celebrates the 40th anniversary of the first film.

Ghostbusters: Frozen Empire had its world premiere at the AMC 13 Theater at Lincoln Square in New York City on March 14, 2024, and was released in the United States on March 22, by Sony Pictures Releasing under its Columbia Pictures label. The film received mixed reviews from critics, but generally positive feedback from audiences, and has grossed over \$199 million worldwide, making it the ninth-highest-grossing film of 2024.

SYNOPSIS: Three years after the events in Summerville, Oklahoma, Callie Spengler, her boyfriend Gary Grooberson, her children Trevor and

Phoebe, and their close friends Lucky Domingo and Podcast, relocate to New York City to aid Winston Zeddemore and Ray Stantz in reestablishing the Ghostbusters. After the group captures a ghost in Hell's Kitchen, Walter Peck, the Ghostbusters' long-time opponent, threatens to close them down on account of his authority as mayor. To appease him, Callie benches underage Phoebe. Upset, Phoebe attempts to control her emotions by playing chess in a nearby park, where she encounters and befriends Melody, a ghost chess prodigy, who died in a fire.

Meanwhile, Ray and Podcast are collecting cursed objects for examination. Nadeem Razmaadi visits and sells them a strange brass orb with ritual markings belonging to his late grandmother. Ray suspects it is an apotropaic trap. After he tests its PKE levels, the orb unleashes a psionic pulse, which damages the ecto-containment unit – dangerously near capacity – at the Ghostbusters' firehouse headquarters. Winston takes the orb to his privately owned paranormal research center, run by his associate, Dr. Lars Pinfield. Using an experimental extraction device to harness spiritual energy, Lars is unable to extract anything from the orb. To learn more, he joins Trevor and Lucky to see Nadeem, who reveals the orb was kept hidden by his grandmother within a brass-lined chamber. Peter Venkman, brought in to help, discovers Nadeem has latent pyrokinetic powers.

Meanwhile, Ray, accompanied by Phoebe and Podcast, visits Dr. Hubert Wartzki, a New York Public Library research librarian. Wartzki explains the orb was built by four sorcerers called the Firemasters to imprison Garraka, a demonic god who sought to conquer the world with a ghost army, feeding on negative emotions to lower temperatures to absolute zero. They learn Nadeem's grandmother was descended from one of the Firemasters who prevented Garraka from accidentally escaping the orb in 1904 during a mock ritual conducted by members of the Manhattan Adventurers' Society, whom Garraka froze to death. Garraka was confined in the orb due to being vulnerable to copper alloys combined with fire and lacking his devil horns as a power source.

When the trio attempt to stop a ghost from stealing a phonographic recording of the club's ritual, Peck exploits Phoebe's involvement to shut down the Ghostbusters. After an argument with Gary and her mom, Phoebe runs away and takes Melody to Winston's research center. She uses his extraction equipment to project herself as a ghost for two minutes so the pair can physically interact. Melody reveals she had been secretly working with Garraka, offering to free him in exchange for passage to the afterlife. Forcing Phoebe to recite the ritual chant, Garraka escapes, locates his horns and freezes the city. Realizing Garraka will free the ghosts in the containment unit, the Ghostbusters gather to defend their headquarters, aided by Nadeem, who dons his grandmother's brass armor and attempts to master his powers.

Garraka overpowers them and breaches the containment unit. Phoebe reconfigures her proton pack with copper alloys to strengthen it; Melody, betrayed by Garraka, atones by helping Nadeem utilize his powers to weaken Garraka. Ray, with the help from the veteran Ghostbusters, entraps the god by utilizing the ruptured containment unit. Melody reconciles with Phoebe before departing for the afterlife to reunite with her family. As the city thaws, the Ghostbusters are hailed as heroes, with Peck forced to support the team and reinstate Phoebe. The Ghostbusters begin pursuing escaped ghosts across New York City.
