Description

Green Party Taiwan Vector Logo Free Download

Green Party Taiwan is a political party in Taiwan established on 25 January 1996. Although the party is sympathetic to Taiwanese nationalism and shares a number of centre-left positions with the Pan-Green Coalition, the party emphasizes campaigning primarily on social and environmental issues. The party is not a member of, and should not be confused with, the Pan-Green Coalition. Green Party Taiwan is a member of the Asia Pacific Greens Federation and participates in the Global Greens.

Much of the 400-strong membership are affiliated with the non-governmental organisation sector of Taiwanese society, as well as from academia and the youth community.
