Description

Hanazono Niseko Japan Vector Logo Free Download

Hanazono Niseko is internationally renowned for its consistently high falls of light powder snow and its long ski season which runs from early December until April. Averaging around 15m+ of snow each season, Hanazono is famous for its wide-open powder bowls and tree runs. The resort is family-friendly with a large open area for the resort operated ski school and lots of activities for both adults and children. The resort center "HANAZONO 308", offers all kinds of services, including a lift ticket sale, a high-quality gear rental, an arrangement of lessons, and a variety of activities. A cutting-edge slope-side restaurant "HANAZONO EDGE" complements the resort, with an exciting restaurant, café, and bar.
