Description

Hide Admin Bar Based on User Roles V3.8.0 WP Plugin Free Download

This plugin is very useful to hide admin bar based on selected user roles and user capabilities.

Simple but great plugin. ?

– wptoolsdev

Works flawlessly! ?

– thebrazeneye

Features

Hide Admin Bar for All Users => By using this feature you can hide admin bar from frontend for all user types.(User Roles)

Hide Admin Bar for All Guests Users => By using this feature you can hide admin bar from frontend for all guest users / Non logged in users.

User Roles => In this option you can choose user roles to hide admin bar for that specific user roles.

Capabilities Blacklist => Now you can hide admin bar based on user capabilities as well. (Like manage_options etc...)
