Description

Jetpack V13.5 WP Plugin Free Download

Jetpack or Jetpack – WP Security, Backup, Speed, & Growth is a WordPress plugin that helps you create better content, grow your subscribers, earn money from your website and keep it safe, fast, and secure. You can grow and keep track of your website traffic with Jetpack stats, and create better content with Jetpack AI. You can start a newsletter and grow your audience, turning fans into paying subscribers. Create beautiful content with Jetpack Creator and keep your site fast with Jetpack Boost.

HOW TO GET STARTED WITH JETPACK

Installation is free, quick, and easy. Set up Jetpack in minutes. Take advantage of more robust features like WordPress site security and design and growth tools by upgrading to a paid plan.

NEED EXPERT SUPPORT?

We have a global team of Happiness Engineers ready to provide incredible support. Ask your questions in the support forum or contact support.

WHY USE JETPACK ON YOUR SITE

Safer. Faster. More traffic.

WordPress security, performance, marketing, and design tools — Jetpack is made by WordPress experts to make WP sites safer and faster, and help you grow your traffic.

24/7 AUTO SITE SECURITY

We guard your site so you can run your site or business. Jetpack Security provides easy-to-use, comprehensive WordPress site security including auto real-time backups and easy restores, malware scans, and spam protection. Essential features like brute force protection and basic downtime / uptime monitoring are free.

Back up your site automatically in real time and restore to any point with one click. Cloud storage starts at 10GB, which is more than enough for most sites, with additional storage options available if needed. Great for eCommerce stores especially Woo.

Manage migration to a new host, migrate theme files and plugins to a new database, easily duplicate websites, create full database backups, clone websites, repair broken websites by restoring older backups or easily set up a test site by creating a duplicate of your existing WP website.

See every site change and who made it with the activity log, great for coordination, debug, maintenance, or troubleshooting.

Examine incoming traffic to your WordPress site with our WAF (Web Application Firewall) and decide to allow or block it based on various rules. Add an important layer of protection to your site with our WAF (Web Application Firewall), particularly when attackers actively exploit unpatched

vulnerabilities.

Automatically perform malware scans and security scans for other code threats. One click fix to restore your site for malware.

Block spam comments and form responses with anti spam features powered by Akismet.

Brute force attack protection to protect your WordPress login page from attacks.

Monitor your site uptime / downtime and get an instant alert of any change by email.

Secure WordPress.com powered login used by millions of sites with optional 2FA (two factor authentication) for extra protection.

Auto update individual plugins for easy site maintenance and management.

You can purchase all of Jetpack's security features in our Security bundle, or VaultPress Backup, Scan, and Akismet Anti-spam can each be purchased individually.

PEAK SPEED AND PERFORMANCE

Get blazing fast site speed with Jetpack. Jetpack's free CDN (content delivery network) auto optimizes your images. Watch your page load times decrease — we'll optimize your images and serve them from our own powerful global network, and speed up your site on mobile devices to reduce bandwidth usage and save money!

Image CDN for images and core static files, like CSS and JavaScript, served from our servers, not yours, which saves you money and bandwidth.

Unlimited, high speed, ad free video hosting keeps the focus on your content, not on ads or recommendations that lead people off site.

Custom site search is incredibly powerful and customizable. Helps your visitors instantly find the right content so they read and buy more. Works great with WooCommerce / eCommerce sites to help filter products so customers get what they want on your site faster.

Recommended to use with Jetpack Boost for ultimate WordPress site speed.

POWERFUL TOOLS FOR GROWTH

Create and customize your WordPress site, optimize it for visitors and revenue, and enjoy watching your stats tick up. Build it, share it, and watch it grow.

Auto publish blog posts and products to social media by simply using our tools to connect to Facebook, Tumblr, Mastodon, and LinkedIn.

Easily share Instagram posts on your pages and blog posts.

Collect a payment or donation, sell a product, service, or membership with simple integrations with PayPal and Stripe.

Grow traffic with SEO tools for Google, Bing, Facebook, and WordPress.com. XML sitemap created automatically.

Advertise on your site to generate revenue. The ad network automatically does the work for you to find high-quality ads that are placed on your site.

Manage Jetpack features from anywhere with the official WordPress mobile app, available for Apple iOS (iPhone or iPad) and Google Android.

Looking for Customer Relationship Management? Check out the Jetpack CRM plugin which works alongside Jetpack to give you a simple and practical way to build relationships with your customers and leads.

POWERFUL STATS TO GROW YOUR SITE

With Jetpack Stats, you don't need to be a data scientist to see how your site is performing.

Advanced site stats and analytics to help you understand your audience.

Discover your top performing posts & pages.

See who is creating the most popular content on your team with our author metrics.

Easily keep track of your content creation habits & trends over the years.

View weekly and yearly trends with 7-day Highlights and Year in Review.

See what popular social networks your content is being shared to the most.

Explore real-time data on visitors, likes, and comments.

Get detailed insights on the referrers that bring traffic to your site.

Discover what countries your visitors are coming from.

Measure link clicks, video plays, and file downloads within your site.

WRITE SMARTER, NOT HARDER.

Create your ad. Choose your audience. Set your budget. It's that easy.

Amplify your reach for just a few dollars.

EASY DESIGN TOOLS

Quickly customize your site to make it stand out — no coding needed.

Themes — Simple WordPress themes to get started on your site.

Related posts — Keep visitors on your site by automatically showing them related content they will be interested in.

Gallery and Slideshow tools — Image galleries, carousel slider, and slideshows for WP sites and stores.

Subscriptions — Make it easy for visitors to sign up to receive notifications of your latest posts and comments.

Contact form — Easily build unlimited contact forms for free without any coding. Receive email notifications for each response. Integrate with mail solutions like Creative Mail to reach your customers and leads quickly. Connect to Jetpack Anti spam (powered by Akismet) to filter submissions.

oEmbed Support — easily embed images, posts, and links from Facebook and Instagram.

INTEGRATIONS

Jetpack is updated monthly to ensure seamless integration with top WordPress plugins and other tech products.

Built for WooCommerce: Jetpack and WooCommerce are both made by Automattic. Backup, Scan, Anti-spam, integrate perfectly for Woo / eComm stores.

Jetpack is fully compatible with v2.0 of the official AMP plugin for WordPress.

Better understand your customers and marketing with Google Analytics (GA) integration.

Social media platforms: Instagram, Facebook, Tumblr, LinkedIn.

Simple Blocks to customize your site: Pinterest, Whatsapp, Podcast player, GIFs, maps, tiled gallery, slideshow.

Payment processors: easily collect payments or donations and sell products through Stripe and PayPal.

Site speed and performance plugins: Works great with WP Super Cache by Automattic and Cloudflare.

Contact form: Anti-spam (Powered by Akismet) blocks spam comments for Jetpack forms, Contact Form 7, Ninja Forms, Gravity Forms, Formidable Forms, and more.

Other tech integrations: Instagram, Creative Mail, Mailchimp, Calendly, Whatsapp, Pinterest, Revue, and more.
