Description

JOSKIN Vector Logo Free Download

The JOSKIN company, which is today internationally known, is first of all a family business founded in 1968 by Victor JOSKIN, who wanted to dedicate himself to the agricultural world. Marie-José JOSKIN, Mister JOSKIN's wife, joined him at the very beginning to ensure a sound treasury management of the company that kept growing. At the head of the company for more than 50 years, Marie-José and Victor were joined in the nineties by their 3 children, whom ensured a continuity in the family management of this true Belgian "success story". Vinciane, Didier and Murielle completed so the JOSKIN group's board of directors. Despite an outstanding growth and a presence across the world, the company's DNA, focusing on the family and its members' well-being, remained intact.
