Description

Kraftangan Malaysia Vector Logo Free Download

Malaysian Crafts are handicrafts produced by highly skilled craft entrepreneurs expressed through the uniqueness of the products, beautiful motifs and the variety of materials used in traditional and modern manufacturing processes. The Malaysian crafts have been categorized into 5 main craft areas; namely textiles, forest-based, metals, earth-based and various crafts.

The development of the Malaysian craft product designs mostly emphasise on its aesthetic and commercial values. Design inspiration, colour varieties and motifs are usually inspired from the natural sources. Whilst influence of the customs and daily life are the elements that make Malaysian craft products their local identity. The use of natural materials as well as a combination of alternative and new materials have been widely applied to enrich the added values of the Malaysian craft product designs.
