Description

Login Logout Menu V1.5.1 WP Plugin Free Download

Login Logout Menu plugin will help you to add the dynamic login and logout menu to any menu of your WordPress website. You can also set the Login Page url, Login redirect url, and logout redirect url. The menu item will change based on the current user status (Login or Logout).

You can use the following plugin shortcodes to display the Login, Logout, Register, Password reset, Username and Profile links on your website pages.

`login_logout_menu__login_link`
`login_logout_menu__logout_link`
`login_logout_menu__profile_link`
`login_logout_menu__register_link`
`login_logout_menu__username_link`
`login_logout_menu__reset_pass_link`
`login_logout_menu__login_logout_link`

Check out our documentation to implement the shortcodes and filters of Login Logout Menu Plugin.
