### Description

McDonalds V6.15.1 has never looked so good

Great news for McDonald's lovers, as the famous fast-food chain are rewarding you for your loyalty and offering you a chance to receive weekly offers. Offers such as a complimentary sandwich or a free beverage when you buy 5 McCafes. You can also receive money off your meals which can be redeemed both in-store and at the drive-thru. Whether you're a fan of the Big Mac or more inclined to chicken nuggets - there's offers suitable for everyone!

How can I get this App?

Simply download the McDonald's app onto your smartphone and start receiving special offers almost instantly. All you need is an Android smartphone or tablet which runs on version 4.0.3 and upwards. The only information the app requires is your location and a contact email address where they can send the exclusive offers to.

How does the app work?3>

It's easy, every week you will be sent exclusive offers which you can easily redeem within the app - simply select the offer you want, tap 'redeem' and scan your phone when you order at the till. You won't need to print off the deals; all you need to do is show the cashier the QR code on your screen.

Once you've downloaded the app, you will be greeted with a free sandwich as a welcome gift, but make sure you register before you line up in the store. The app will also allow you to browse the menu and find out nutritional information of each item. You can also find out where the nearest McDonalds is by using the locations feature.

What's new?

McDonald's are always looking for new ways to improve their app in order to ensure it's as user-friendly as possible. Recent improvements include:- Push Notifications, which can be kept on or turned off- Social login with Facebook and Google+ options- Ability to choose GPS integration to find nearby McDonald's locations- Performance improvements and bug fixes
