Description

MECC Vector Logo Free Download

MECC (Minnesota Educational Computing Corporation), a division of SoftKey International (now part of The Learning Company), is a leading producer of educational software in the United States. For more than 20 years, MECC has developed high-quality educational software for kids of all ages to meet their needs wherever they learn -- at home or at school. MECC educational software is researched and kid-tested to provide exciting learning adventures. MECC products for Macintosh, Windows, MS-DOS, and Apple II have earned more than 100 awards and notices of recognition from leading publications and organizations in the software industry.
