Description

OGWhatsapp is the modded version of the original Whatsapp with the inclusion of some latest features that give a user with simple and secure usage. You can say that OGWhatsapp APK is reliable and free for its users.

Moreover, it is developed by Third-Party developers along with advanced security and privacy features. By installing this APK app the user can control their privacy concerns like from whom to restrict their statuses, profile pictures, and chatting. These additional privacy features make this app more reliable for users.

Besides, the developers of OG Whatsapp APK have added another feature that helps the user to delete their already sent messages, isn't it amazing! Also, you can hide your online status as well by using this outstanding app.

OGWhatsapp..... a remarkable app!

OGWhatsapp , FMWhatsApp, GBWhatsApp , Aero WhatsApp, WhatsApp Plus is designed with clean interface and its user-friendly feature makes it unique from the other modded versions of Whatsapp. As we all know, Whatsapp does not possess some advanced features the user requires. For this reason, OG Whatsapp APK is designed with some of the latest features that are lacked by original Whatsapp along with the basic ones. Further, there are so many useful features added in this app that will not disturb your privacy & security concerns.

Some Important Things to Know About OG Whatsapp:

OG Whatsapp APK is the modified version of the Official Whatsapp designed with the latest features and made more secure and user-friendly for the users. Most importantly, it is developed by the Third-party, not by the developers of Official Whatsapp. Although it is not designed by the Official developers yet it is secure and safe to use. Consequently, it will never disturb your privacy in any way. So, you can install and use it without any stress. Another important thing to keep in your mind is that always use OG Whatsapp as your secondary account for personal life and casual chatting.

Features of OGWhatsapp APK

As mentioned before, this app is designed with so many additional and advanced features. Let's have a look at them

Pre Built-Message scheduler:

This is one of the most amazing features added to OGWhatsapp APK. There comes a time when you forget to message someone or greet your loved ones or simply don't remember to start a chat with your friend but with this feature, you can schedule your messages to be sent at a particular time. With this Pre-built message scheduler, your message will be sent automatically to the user you want at the time you have fixed. In this way, OGWhatsapp will send the message to that specific contact without you doing anything.

Android: OGWhatsApp Free Download

Besides, a secure and good Wi-Fi connection is required to use this feature. So, enjoy this feature and stay in contact with your friends and loved ones without disturbing your professional life.

Anti-Ban APK

The users who have installed the modded versions of WhatsApp can go through the pain of being banned by the Official WhatsApp. But by installing the latest version of OG WhatsApp you can get rid of getting banned as the Developers have sorted out the issue. Hence, this feature has made this app 100% safe and secure to use.

Rooted Status-Download Feature

Apart from chatting with your friends and sharing your images, you can also upload your statuses by using this incredible app. With this feature, you can get more closely with your family as you share your bits of life in terms of statuses and stories. Also, the user can download the statuses and stories uploaded by their friends or family that is not possible by using official WhatsApp.

Make a call to non-added contacts

If you are using the official WhatsApp then it is compulsory to add the number first before placing a call or sending a message. But this is not the case with OG WhatsApp as you can send a message or call a person even if they are not added in your contact list.

Set Group name more than 35 characters

Group chatting is one of the best features of Official WhatsApp that we loved. As we love group chatting with our friends and family members for long hours without facing any problem. But when it comes to setting up the group name OG WhatsApp provided us exceeded the limit of characters that is 35 as compared to 25 which is just astonishing. Hence, you can keep any funny or interesting name of your group with 35 characters.

Block your particular contact's calls

Yes, by installing this excellent app you can block any of your contacts a call if they are disturbing you by calling again and again. This feature will help you by just blocking their calls not the contact completely. You can do this by simply turning off the call receiving option of a particular contact by going in settings.

Send more than 90 images

Another great feature of this app is that you can send up to 90 images at one time that were not possible while using the Official WhatsApp. So, enjoy this extremely beneficial feature of OGWhatsApp.

How to Install OGWhatsApp APK

So Finally You Install OGWhatsApp That's Great, from where you will download it and how will you install it? Don't Worry About That I Will Teach you All. So Its Simple to Install Let Peep Discover ..

Step 1: Simply Open Download APK From Your Mobile File Manager You Appear This Type Screen. click in the install button

OGWhatsApp APK Download (Official) Latest Version OCT 2021
October 11, 2021 By Admin 2 Comments

WhatsApp is one of the incredibly popular and growing apps of this century. It does not require any introduction as it owns more than 500 million active users each month. It is the first app that we installed on our smartphone after getting them. OGWhatsApp is the modded version of the original WhatsApp with the inclusion of some latest features that give a user with simple and secure usage. You can say that OGWhatsApp APK is reliable and free for its users.
