Configuration

New reworked theme settings panel.

Our redesigned theme settings panel offers a fresh and intuitive interface to deliver the best configuration experience.

The screenshot shows a 'Dashboard / Theme Settings' interface. On the left is a navigation menu with categories: General, Appearance (selected), Typography, Menu, Pages, Blog, Portfolio, Shop, Custom CSS & JS, Maintenance Mode, Performance, and Other. The main content area is titled 'Appearance Settings' and includes four sections: 'Brand Color' (Choose the global accent color for your site), 'Primary Fill Color' (Set the global color for primary background, e.g. footer, comments area), 'Highlight Color' (Set the selection color of the highlighted text), and 'Overlay Color' (Set the global color for primary background). Each section has a 'Select Color' button.

Powered by ACF Pro plugin, which allowed us to create a plethora of options you can use for your site.

Performance

Optimized for fast loading.

Ohio is a highly performant with a good structure and well-written source code to make your site fast and SEO optimized.

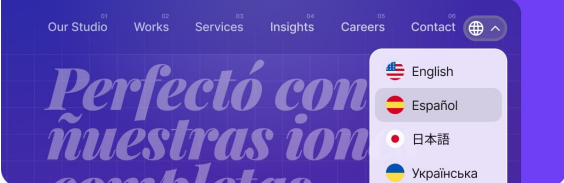

Ohio 3.4+ includes much smaller CSS and JS files in the package.

A Grade 97% PageSpeed score	A Grade 93% YSlow score	35% Less CSS and JS code files

Additional Info

Note: Please note that to use Ohio you need a WordPress installation from WordPress.org running on your own web server. Or you will need a WordPress.com site with the Business plan. For the WordPress.com please note that themes only work on WordPress.com sites if you are on the Business plan. If you have the Free, Personal or Premium plan, WordPress.com does not allow you to install custom themes and plugins.
