Description

OneUI Vue Edition V1.1 is a pure Vue.js version created from scratch and based on the design of our best seller dashboard, OneUI Remastered. It is a super flexible Bootstrap 4 admin dashboard template and UI framework that was built with Vue CLI, Vue Router, Vuex and BootstrapVue. It will enable you to build all kinds of pages using the same fast and powerful layout.

OneUI Vue Edition includes tons of development tools which will save you time and help you code your projects faster and more efficiently. It is completely modular with many unique features and will help you build your all Vue.js based projects. OneUI Vue Edition is a professional, flexible, modern, fully featured admin template that can be used to create the UI for all kind of projects: Web Applications, Backend Websites, Websites, Custom Admin Panels, Admin Dashboards, CMS, CRM or even a Portfolio, Blog, Business Website. We encourage you to have a good look at live preview and discover all the included features!
