70+ Fully Customizable Widgets & Addons

Besides adding new widgets on monthly bases, we don't mainly focus on the number, we focus on adding as much customization options to our widgets as possible more than anywhere else.

Modular & Lightweight

Premium Addons for Elementor is fully modular. You can enable/disable specific elements to prevent overloading your website with code you will not actually use which helps your website have a blazing fast performance.

WPML Ready

You can use Premium Addons to build multilingual websites easily as our plugin is 100% compatible with WPML.

Fully Responsive & Cross Browser Ready

Each widget and addon has been tested on different screen sizes, mobile devices, and tablets keeping in mind to add special responsive controls for the tricky widgets and addons we create. We always test Premium Addons on BrowserStack to make sure that everything is stable.
