Description

Product Time Countdown for WooCommerce V1.5.8 WP Plugin Free Download

Product Time Countdown for WooCommerce V1.5.8 plugin lets you add a live time counter to any WooCommerce product. It is a simple but powerful plugin to generate more sales. It allows you to create a pleasant and functional Countdown timer in just a few minutes. The clocks will notify customers when the sales end.

It shows a countdown box with the product on sale to tell your customer how much time they have left to purchase your product. Plus, you can choose which product action should execute after time ends. Like;

Product Set to Disabled (i.e., Non-purchasable or Hidden)

Product Sale Canceled

Product Stock Set to Sold Out

No Action is Taken
