WP Project Manager Pro V2.6.1 – Project and Team Management for WordPress

WP Project Manager Pro is a powerful WordPress plugin for managing collaboration and delivering projects on time. Powerful toolbar – take a bird's eye view of all your projects, as well as related team members. Create new projects, add and edit team members, select user roles and filter projects by category and status. Project and task management – get full control over the performance of your team without subscribing to the services of any third-party site with various restrictions. Create unlimited projects, tasks and attract as many people into projects as you want.

WordPress Project Manager is a simple yet powerful open source Project Management tool to manage work and deliver projects timely.

Everything You Need to Manage Your Projects:

Create, organize, & assign projects, tasks, to-dos, faster than ever. Manage your work with deadlines, milestones, subtasks, activities, progress reports & advanced insights.

Ultimate Team Management Software to Ensure Best Teamwork:

Work & collaborate online from anywhere, anytime. Fits teams & organizations of all shapes & sizes!

Powerful Features:

Create with limitless possibilities. This Web Based Project Management System is packed with features & tools to boost your team productivity.
