PT Pelabuhan Indonesia (Persero), trading as Pelindo, is Indonesian state-owned port operation company that offers an integrated port service throughout Indonesia. Pelindo officially founded on 1 October 2021 as a result of integration between four state-owned enterprises PT Pelindo I (Persero), PT Pelindo II (Persero), PT Pelindo III (Persero) and PT Pelindo IV (Persero); with PT Pelindo II as the surviving company. The establishment of Pelindo is a strategic initiative of the government as a shareholder to realize national connectivity and a stronger logistics ecosystem network. Maritime connectivity is projected to improve, whether it is local ports, or international ports.
