RoboCop 3 1993 Film Vector Logo Free Download

RoboCop 3 is a 1993 American cyberpunk action film directed by Fred Dekker and written by Dekker and Frank Miller. It is the sequel to the 1990 film RoboCop 2 and the third and final entry in the original RoboCop franchise. It stars Robert Burke, Nancy Allen and Rip Torn. Set in the near future in a dystopian metropolitan Detroit, the plot centers around RoboCop (Burke) as he vows to avenge the death of his partner Anne Lewis (Allen) and save Detroit from falling into chaos, while evil conglomerate OCP, run by its CEO (Torn), advances its program to demolish the city and build a new "Delta City" over the former homes of the residents.

It was filmed in Atlanta, Georgia. Most of the set and background buildings were slated for demolition to make way for facilities in the 1996 Summer Olympics. RoboCop 3 is the first film to use digital morphing in more than one scene.

The film was a critical and commercial failure in the US, grossing \$47 million worldwide against its \$22 million budget, making it the least profitable film of the RoboCop franchise. Two television series, RoboCop and RoboCop: Prime Directives, were released in 1994 and 2001 respectively, and the film series was rebooted with the 2014 remake RoboCop.

**SYNOPSIS:** In a dystopian future, the conglomerate Omni Consumer Products (OCP) have succeeded in their plan from prior films and have acquired the city of Detroit via bankruptcy, but are now struggling with their plans to create the new Delta City. The Delta City dream of the now-deceased OCP CEO lives on with the help of the Japanese Kanemitsu Corporation, which has bought a controlling stake in OCP and is trying to finance the plan. Kanemitsu, CEO of the Kanemitsu Corporation, proceeds with the plans to remove the current citizens in order to create Delta City, but is doubtful about the competence of his new "partners". Due to passive resistance by the DPD toward mass eviction, OCP creates a heavily armed private security force called the Urban Rehabilitators, nicknamed "Rehabs", under the command of Paul McDaggett, to forcibly relocate the evicted citizens such as the residents of the now condemned Cadillac Heights. Nikko Halloran, a young resident of Cadillac Heights skilled with computers, loses her parents in the relocation process.

RoboCop and his partner Anne Lewis try to defend civilians from the Rehabs one night, but McDaggett mortally wounds Lewis, who eventually dies. Unable to fight back because of his "Fourth Directive" programming, RoboCop is saved by members of a resistance movement composed of Nikko and residents from Cadillac Heights and he eventually joins them. Because he was severely damaged during the shoot-out, RoboCop's systems efficiency plummets, and he asks the resistance to summon Dr. Lazarus, one of the scientists who created him. Upon arrival, she begins to treat him, deleting the Fourth Directive in the process. During an earlier raid on an armory, the resistance picked up a jet-pack prototype, originally intended for RoboCop's use, which Lazarus modifies and upgrades to hold RoboCop.

After recovering from his injuries, RoboCop conducts a one-man campaign against the Rehabs and OCP. He finds McDaggett and attempts to subdue him. However, McDaggett successfully escapes and obtains information from a disgruntled resistance member on the location of the resistance fighters' base. The CEO of Kanemitsu has developed his own ninja androids called "Otomo" and sends one to assist McDaggett against the resistance of anti-OCP militia forces. The Rehabs attack and most of the resistance members are either killed or imprisoned. When RoboCop returns to the rebel base to find it abandoned, an Otomo unit arrives and attacks him. RoboCop experiences another power drain and his left arm and his auto gun is destroyed, but eventually he successfully overcomes his opponent with his arm-mounted gun. Nikko infiltrates the OCP building and assists a captured Lazarus in broadcasting an improvised video, revealing OCP as responsible for the city's high crime rates and incriminating them for removing and killing the Cadillac Heights residents. The broadcast causes OCP's stock to plunge, financially ruining the company.

Meanwhile, McDaggett decides to execute an all-out strike against Cadillac Heights with the help of the Detroit police, but the police officers, enraged at the company's callous ways, refuse to comply and instead defect to the resistance, escalating the rebellion against OCP into a full-scale war. As a result, McDaggett turns to hiring street gangs and hooligans to assist with his plans. Having heard Lazarus' broadcast, RoboCop provides aerial support for the entrenched resistance forces. He then proceeds to the OCP building and confronts the waiting McDaggett. RoboCop is then attacked, and nearly defeated, by two Otomo robots. Nikko and Lazarus succeed in reprogramming them using a wireless link from a laptop computer, having them attack each other. The Otomos' self-destruct system activates, forcing RoboCop to flee with Nikko and Lazarus. The flaming discharge from the jetpack immobilizes McDaggett, leaving him to perish in the blast.

As Old Detroit is being cleaned up, Kanemitsu arrives and finally comes face to face with RoboCop along with his group, while his translator tells the OCP president on Kanemitsu's behalf that he is fired, as the corporation shuts down OCP for good and plans to leave Detroit. Kanemitsu then bows to RoboCop and the group in respect. The CEO compliments RoboCop and asks for his name, to which he responds with, "My friends call me Murphy. You call me RoboCop."
