Silent Hill: Revelation (also known as Silent Hill: Revelation 3D) is a 2012 supernatural horror film written and directed by M. J. Bassett and based on the video game series Silent Hill published by Konami. It is the second installment in the Silent Hill film series. The film, produced as a sequel to Silent Hill (2006), stars Adelaide Clemens, Kit Harington, Martin Donovan, Malcolm McDowell and Carrie-Anne Moss, with Deborah Kara Unger, Sean Bean and Radha Mitchell returning from the previous film. The plot follows Heather Mason (Clemens), who, discovering on the eve of her eighteenth birthday that her presumed identity is false, is drawn to the town of Silent Hill.

Talks for a Silent Hill sequel began in December 2006, with Christophe Gans returning to direct and Roger Avary writing. However, after Gans dropped out and Avary was imprisoned for vehicular manslaughter, the project entered development hell. Later, in early 2010, Bassett was hired to direct and write, replacing Gans and Avary. She had expressed her openness to fans' suggestions of actresses for the role of Heather. On an estimated \$20 million budget, filming took place from March to May 2011 in Canada, with the 3D RED Epic camera used for the process; audio mixing took place in France.

Silent Hill: Revelation was released theatrically in North America on October 26, 2012, by Alliance Films and Open Road Films respectively; in France on November 28, by Metropolitan Filmexport. The film grossed over \$55.9 million worldwide and received largely negative reviews from critics. A reboot, Return to Silent Hill, is in production.

SYNOPSIS: Sharon Da Silva and her adoptive father Christopher have spent the past few years moving from town to town and assuming different identities, including the names Heather Mason and Harry Mason. Heather believes that they are on the run from the police because Harry killed a man in self-defense and that her adoptive mother Rose Da Silva died in a car crash. In fact, he has been protecting her from the Order, a cult of Silent Hill. Rose was able to free Heather from the fog world using one half of a talisman called the Seal of Metatron, but she remained trapped in Silent Hill.

Heather meets fellow student Vincent Cooper, but she is haunted by hallucinations of Silent Hill. She is approached by private investigator Douglas Cartland regarding her identity. Heather warns her father, but he is abducted by the Order and taken to Silent Hill. Unaware of this, Heather goes to a mall to wait for him, but enters the mall's Otherworld. Douglas explains he was hired by the Order to find Heather, but decides to help her when he discovered who his clients were. A monster, the Missionary, kills Douglas. Heather returns to the real world and flees, leaving her a suspect of Douglas' murder.

Vincent escorts her home, but they find a message instructing Heather to go to Silent Hill, and Heather reads a letter from her father detailing the truth of her background. Heather and Vincent travel to the town, but stop at a motel, where Vincent reveals that he is the son of the Order's leader Claudia Wolf, and was sent by her to ensure Heather came of her own volition to Silent Hill. He reveals that Heather is a part of Alessa Gillespie, a girl whose immolation 38 years earlier by the Order created the town's shifting dimensions. The resulting argument triggers a shift to the Otherworld. The Missionary grabs Vincent, but not before he tells Heather to find his grandfather Leonard, who possesses the other half of the Seal of Metatron.

Heather ventures into the foggy dimension to find her father. She encounters Alessa's mother Dahlia, who reveals that Claudia intends to complete the purpose intended for Alessa at her burning. After a shift to the Otherworld, Heather finds Leonard who, after informing her that the Seal of Metatron will reveal "the true nature of things", fuses Heather's half of the amulet with the one he possesses and becomes a monster. After being knocked out and carried off, Heather regains consciousness and grabs the amulet from within his body, killing Leonard. As she runs away, she summons Pyramid Head, the entity created to protect Alessa (and by extension Heather), with her pleading and hides from him. Shortly after, she witnesses Vincent being taken away by the Order after being deemed insane by Claudia for betraying them.

Heather saves Vincent and they go to Lakeside Amusement Park where the Order's sanctuary is hidden. Dark Alessa, the manifestation of Alessa's wrath, confronts Heather who embraces her counterpart, absorbing her, and making Alessa complete once again. Heather confronts Claudia, who is holding Christopher and Vincent hostage. Claudia explains that Alessa's destiny was to be the incubator for a deity worshiped by the Order, who would punish all sinners upon its birth, completing Heather's destiny as well. Remembering Leonard's words, Heather gives Claudia the Seal of Metatron, revealing her to be the Missionary. Heather summons Pyramid Head, who kills the Missionary, allowing Heather to rescue Vincent and Christopher.

As the fog fades from the town, Christopher decides to stay in Silent Hill to find and free Rose, leaving Heather and Vincent to care for each other. They hitch a ride in a truck driven by Travis Grady. Travis mentions to Heather and Vincent that they were lucky as he had not been driving in that direction for a long time. A couple of police cars, followed by a prisoner transport, enter the area of Silent Hill, which is then consumed by the fog.
