Social Auto Poster V5.4.4 - WordPress Scheduler & Marketing Plugin

Social Auto Poster – the name itself indicates the functionality of the WordPress plugin, which is Social Media Auto Posting and Scheduling, that enhances your business online presence, audience, social community, engagement, and website traffic by quickly and easily publishing all types of WordPress posts.

Why should one waste their valuable time on sharing posts manually? Make it automatic. Social Auto Poster is your ALL-IN-ONE solution for the major social media networking sites such as Facebook, Twitter, LinkedIn, Tumblr, YouTube, Google My Business, Pinterest, Medium, Telegram, Instagram and WordPress that allows you to auto publish, schedule and Quick share your content. You may configure your social accounts to post new content as well as repost old content to keep it alive and reach the maximum number of audience. The plugin also works nicely with personal profiles, business pages, and groups, etc.

SOCIAL AUTO POSTER

Social Auto Poster - a perfect choice for auto posting your content to various social platforms like Facebook, Twitter, LinkedIn, Tumblr, YouTube, WordPress, Reddit, Telegram, Medium, Google My Business, Pinterest and Instagram. You can configure your social accounts and post new content as well as reuse your old content to keep a fresh momentum. Additionally, S&P provides an amazing feature for scheduling your content to your calendar and posting. The plugin also comes well with personal profiles, business pages, groups, etc.

POST IN JUST 3 STEPS

The process of posting is very easy to do within 3 simple steps:

1. **Configure your social accounts** Configure your social accounts like Facebook, Twitter, LinkedIn, Tumblr, YouTube, YouTube, Reddit, Telegram, Medium, Google My Business, Pinterest, Instagram and you can easily connect all the same even if needed multiple instances of each platform.
2. **Create a post** You can create a post with a content which you like to auto post, for e.g. posts, pages and any custom short codes.
3. **Review** Now your post will get automatically posted on social media. It will grow your presence in social networks and make you more visible globally.

★★★★★ for Customer Support by *js Sunny* 2 months ago

Social Auto Poster - WordPress Plugin by wpweb is a plugin one of them. It is a great alternative to Revive Old Post Pro. There are many features which are not available in the Revive Old Post Pro. They offer you the yearly subscription and you can never afford it. However, the plugin under discussion (Social Auto Poster - WordPress Plugin by wpweb) offers you to buy it once and enjoy for long life. If something is created by humans, then the problems with that creation are also its part. The great thing is to resolve those problems. I was also facing the problems with this plugin due to my settings mistakes. But Team WPWeb helped me. A great Team with a good personality. They are also a well-knowledge person at all. They picked the my issue from my short words and he did best for me. They are so polite, they politeness assured me about my decision to purchase this plugin. They replied the support tickets within hours. They also provided me the support via Skype to solve the issue. I never saw the support service like them. Especially, I am a very pleased with the support team who is a great team has the right attitude. I like them... I love their support service. Thanks, Team WPWeb

★★★★★ for Customer Support by *fxslider* 1 year ago

They helped me fix a new issue with LinkedIn. Great support

★★★★★ for Feature Availability by *centosa* 7 months ago

One of the very rare plugins for wordpress able to automatically share my posts on facebook groups and pages, twitter and even telegram. The online documentation is very extensive and simple to use, the plugin is very rich in settings and quite simple to use. I highly recommend it.

★★★★★ for Feature Availability by *vyanforum* 1 year ago

Süper nur Instagram fehlt...

★★★★★ for Code Quality by *attunist* 8 months ago

Great application which unlike its competitive one pays attention to the quality of code and not the UI. Of course it would be nice to see an aesthetic lifting in future updates but for these kind of apps one should really pay attention to performance. Keep it up wpweb

INTRODUCTION

Social Auto Poster is a WordPress plugin that allows bloggers, vloggers, influencers, and marketers, save their time by automating their social media posting. While they are publishing content on their WordPress website, it will be automatically published on the targeted social media profiles. This scheduler allows you to schedule numerous posts to be published at the desired time, instantly, and yes, the most important feature is the REPOSTER, which allows you to revive old posts as well. This social media auto poster supports roughly 11 social media networks, which will undoubtedly help you enhance your website traffic and SEO. Social Auto Poster promotes your popular content, keeping your users engaged and helps you to grow your brand.

If you use third-party plugins to create custom post types on your website, the plugin will recognise this and support auto posting as well as all other features of the plugin for the custom post types. The plugin has Google Analytics integration, which allows you to track post engagements and click counts across all social media networks. Which will help you to build your social media marketing strategies.

THE BENEFITS OF SOCIAL MEDIA AUTO POSTER & SCHEDULER

Time Saver:- It saves your time and automatically shares your Posts/Pages/Custom Post Types to all major Social Media Platforms (Facebook, Twitter, LinkedIn, Tumblr, YouTube, Google My Business, Pinterest, Medium, Telegram, and WordPress). You just have to configure it when you initially install the plugin, but it will handle everything for you after that.

SEO Friendly:- It improves SEO of your website by having more backlinks from Social Networks, and also the quickest way for your website to attract more traffic.

Cost Effective:- Becomes your own Social Media Marketing Manager & thus it saves your money.

Easily Manageable:- It is the easiest way to manage, schedule, and share updates to your configured social media networks.

Category-specific Posting:- It's easily adaptable so you can use associated tags and category-specific posting for each platform to attract a specific targeted audience.

Track Post Performance:- Use Google Analytics to track post interactions and clicks in order to measure performance and define social media marketing strategies for each social network.

Free Lifetime Updates:- With this plugin, you will receive free lifetime updates even after your support period expires.

Establish Social Media Presence:- You are able to keep your social media content fresh as new with the help of Social Auto Poster. Consistent online presence as material is posted automatically, consumers find more content of yours on their social media platform. It is an everlasting way to establish a strong social media presence.

Compatible:- Social Auto Poster works with almost all the eCommerce plugins perfectly and seamlessly.

AUTO POST NEW BLOG/ARTICLE OR ANY CUSTOM POST TYPE

It is annoying to publish the post manually every time on Social Media Platforms. Social Auto Poster has an option to make it automatic by selecting one setting. The plugin will automatically identify new posts and publish them on the chosen social media networks, as well as schedule them based on your settings. The key reason for making it automatic is because most of the businesses, bloggers, and influencers have a large number of social accounts, groups, and pages to handle and will not have the time to do it manually. Sharing posts with Social Auto Poster is quite simple; once configured, all you need to do is make a WordPress post, and the plugin will handle the rest.

SCHEDULE POSTS

When you have readers from all over the world and want to reach out to a certain country audience, you must always publish something during their time zone. >Google Analytics, which is also integrated in this automation tool, so that it can provide information about their internet presence. You can schedule a post to be published based on their online presence, and you will receive a high engagement and click through rate during this period, and this schedule a post module will help to improve engagement ratio in that way. By using post scheduling, you will not avoid the peak hours of social media and engage with as many people as possible. With the help of Social Auto Poster WordPress Plugin, you can select if you want to publish the content or not and you are able to choose when to publish that content. Also, you can schedule or delay

posts and choose specific hours and days.

You can choose what stuff to publish, what not to publish, and when to publish. Set these options in a few clicks, and Social Auto Poster will do the rest for you. If you want specific hours and days, you can also schedule or delay your posts.

QUICK SHARE

Quick share is a feature that allows the posting and scheduling of images, links, and messages without creating a WordPress post. This will allow you to make announcements or do other things in which you may not want to create a blog in WordPress but want to reach a large number of people. Here in this case you can use the Social Media Auto Poster – Quick Share module. Simply put, it is the finest strategy to improve your site's social media presence.

ALL CUSTOM POST TYPES SUPPORTED

Custom post types transform a WordPress site from a blogging platform to a robust Content Management System (CMS). Because Social Auto Poster supports all custom posts, you will be able to share all custom post types on social media networks by running the Social Auto Poster scheduling plugin.

CATEGORY AND TAG WISE POSTING

You may wish to publish a post of particular categories or tags to social media accounts. In such cases, it is usually difficult to pick a posting account manually for each post, and you believe you should have some type of method to accomplish this in a matter of seconds. Yes, Social Auto Poster is the only social media WordPress plugin that allows you to choose a posting account for each social media network from the add and edit category/tag page.

For e.g., We have different categories for selling food for dogs and cats. So therefore we have a page for dog food and cat food on facebook, and so we share our product on those pages. It is obvious that we should post the dog food category on the dog food page and cat food category on the cat food page. With the help of category wise posting you can select the category wise posting this plugin takes the load off your shoulder of posting manually in every page. By selecting the category you will be able to share your post respectively.

INCLUDE AND EXCLUDE CATEGORY AND TAG

It is always difficult to identify and remove posts from the auto scheduled list and reposter that you do not want to publish automatically on social media. Similarly, if you have a bunch of posts that only need to be scheduled, auto posted OR repost, it is difficult to schedule one by one post. The social Auto Poster plugin has the ability to include or exclude categories and tags when determining whether to share or not via scheduler and reposter.

URL SHORTENER

We've all heard of URL shorteners. The post URLs will always be long and distracting that we always think to make short, as the URL you are publishing on social networks should be pleasant otherwise you may startle your followers. The social auto poster supports TinyURL, Bitly URL, and ShorteSt URL, as well as the possibility to maintain the Perfect permalink URL to be posted.

Twitter only allows 280 characters, so if your URL is too long it'll also be counted in those characters and you won't be able to describe your message so with the help of URL shortener you can shorten the length of your URL and convey your message without any trouble.

CONFIGURE UNLIMITED ACCOUNTS

Does this sound good? Yes, Social Auto Poster has a large capacity to handle an unlimited number of accounts for each Social media site. Configure as many as possible. There is no such thing as a limit...!!

GOOGLE ANALYTICS

We are all aware of what Google Analytics is doing, right? The Social Auto Poster plugin is integrated with Google Analytics, you can simply add your analytics tag to the plugin and begin tracking. Tracking will assist you in monitoring and identifying the best time to post for increased interaction, engagement and clicks on each social network.

POSTING LOGS

A log is required to document each success and failure. The Social Auto Poster plugin provides a page where all of your posting logs are displayed, with post title and link, posting execution time, and post preview with social network post link, allowing you to simply check the published post from the logs. Posting reports also generates a pie chart depending on the social networks chosen, which can be adjusted by year, month, and days, as well as a custom period.
