Description

Social Backlinks v2.2.12 – Automatic Social Posting For Joomla FREE DOWNLOAD

Social Backlinks v2.2.12 – Automatic Social Posting For Joomla helps you automatically publishes your Joomla, K2, ZOO, Hikashop, RedShop, Virtuemart content to social networks such as Facebook, Twitter, LinkedIn and Vkontakte.

If you have a website running Joomla and you post links to his articles in social network profiles, the Social Backlinks extension will help make this work easier and more efficient. With it, you can keep synchronized links in all known social networks. Moreover, Social Backlinks are compatible with many well-known components, like Virtuemart, Redshop, Hikashop, K2 and others. And Social Backlinks can work both automatically and manually.

With Social Backlinks extension you get: a well coded component, automatic sync plugin, detailed documentation, support by the developer.

**** Social Networks features ****

One Joomla, K2, ZOO, Hikashop, RedSHOP, Virtuemart content generate up to 6 social backlinks per publication

Facebook pages (2 pages)

Twitter account

LinkedIn profile and page
