Description

Starlight v2.0 - Responsive Bootstrap 4 Admin Dashboard Template

Starlight Admin Template is a newly updated admin template based from Bootstrap 4 with many features, plugins and custom elements that you can use for your back end projects. This template is very useful for any type of application whether for desktop or mobile devices. This template includes one of the very useful interfaces like wizard form, validators, maps, tables, etc.

If you found any bugs, strange looks, errors or have any suggestions, don't hesitate to let me know, no guarantees but I will do my best to fix those issues as soon as possible. Don't forget to give this a star :)

List of features
