Structure - Construction Industrial Factory WP Theme Free Download

Structure Version 7.18 – A NEW AGE FOR YOUR EMPIRE

Now your construction business site can run as fast as an eagle with smooth performance and optimal search engine optimization. All integrated premium plugins, WPBakery Page Builder, Revolution Slider, Essential Grids are updated for better functioning. In addition, demo import issue, WordPress 5.0 and Gutenberg compatibility are solved. Users can rest assured now as the new update of Structure has provided all the best things that your site will need.

Construction WordPress Theme | Structure is the construction responsive WordPress theme for building service company such as construction, engineering, architecture website. Base on the needs of construction website, Structure brings the professional and clear design for your website.

Besides, WooCommerce is supported. WPBakery features bring you drag&drop ability to ensure you can easily design your construction website just how you like. Contact Form 7, MailChimp for WP and Testimonial are included in this.

16+ Predefined Color Schemes

Styling is quite important to modern websites, especially for construction and architect ones, which is why we have pushed it to offer users with more than 16 color schemes. This will take your web to a higher level when the color can be a primal signal for realizing your brand identity.

06+ Eye-catching Header Presets

Attractive header presets are designed for meeting the needs of easing the navigation, thus enhancing the user experience. Based on thorough investigations into what works best for visitors in browsing options while increasing the UX/UI, these headers will surely help you keep your audience.

Blazing Fast Loading Speed

Studies have pointed out that your visitors won't stay if the site takes more than 3 seconds to load. Understanding the importance of page speed in SEO, the page loading speed is fully optimized so that your site can run as fast as an eagle.

One-click Installation

Getting tired of wasting time on data downloading and construction demo importing? With Structure, this isn't a problem as the installation and import is done within one click only. Just press the button and wait in comfort while the importer do the rest for you.

Live Customizer

Get a preview into the changes you're made during the site building & customizing process with Live Customizer. It's a reviewing-while-making experience where you know how your site would look when options are changed.

Responsive Design & Retina Ready

Structure is fully tested by our developers to ensure good performance across a wide variety of browsers and devices. All construction elements are made responsive with retina compatibility for a seamless loading experience.

Premium Plugin Bundle

Upon the integration of premium plugins into Structure, we make a promise that your construction site-building process will be as effortless and convenient as possible. The integration of these tools is greatly economical for users when they don't have to purchase each individually for regular use.
