### Description

Taiwan Textile Federation Vector Logo Free Download

For over 45 years, the Taiwan Textile Federation (TTF) has been serving Taiwan's textile industry. Together with the textile industry, we have weathered time and again the storms and embraced the opportunities that came with the challenges and changes in the global market. Through all these changes, we have seen how Taiwan's textile industry has remained at the cutting edge when it comes to innovation and retained its status as a leading producer of high-end functional textiles.

Create using Adobe Illustrator CC 2020
