toyyibPay is a payment gateway solution that allows businesses to accept online payment.

With toyyibPay, customers can purchase your products and make payment via any local online banking through FPX.

You don’t need to go through the hassle of checking your account to verify the transaction as toyyibPay will do that for you via special encryption and verification technology.

There are lots of other payment gateway options available in Malaysia but where toyyibPay stands out from the rest are in these areas:

Create using Adobe Illustrator CC 2020
