WhatsApp Chat 3.6.6 for WordPress plugin allows you to integrate your WhatsApp experience directly into your website. This is one of the best way to connect and interact with your customers, you can offer support directly as well as build trust and increase customer loyalty.

FEATURES

SUPPORT MULTIPLE ACCOUNTS

NinjaTeam WhatsApp Chat plugin allows you to add multiple accounts of your members into a WhatsApp box to display. You customer can choose a supporter they want to chat, they know exactly who they are having a conversation.

EASILY CUSTOMIZE

NinjaTeam WhatsApp Chat plugin provides you options to select colors for the WhatsApp box to fit your website style and taste. Moreover, you can customize each box for each person depending on their time availability with photo, name tag and job title. When you are online, the button is green or other color you set, otherwise, it is grey. Therefore, when you're not responding quickly, customers don't feel they are ignored. They know exactly your available time in which you set it at the first place.

SUPPORT WPML

Is you site multi-language? Don't worry! You can use any WordPress translation plugins like WPML, Polylang to customize any languages on your site easily and quickly.

SHORTCODE INCLUDED

With shortcode from NinjaTeam WhatsApp Chat plugin, you can display the WhatsApp box anywhere on your site. It can be a page, a post, some particular pages, posts or the whole of your website.

NO CODING REQUIRED

We took the hardest part of coding. We spent time on designing and making UI/UX as best as we can. All you need to do is just uploading the plugin into WordPress, activating the plugin, customizing all the available options and Done!

Enjoy conversations with your customers anytime anywhere! It has never been easier, and stop losing your potential leads!

HOW IT WORKS

After installing the plugin, you have all settings in hand to customize a WhatsApp widget or button on your WordPress site by adding member accounts or support agents with phone numbers or group chat links.

The widget can be appeared on all pages or only desired pages you set. Besides, you can also enable WhatsApp button under WooCommerce Add to cart button.

Each account has its own shortcode which you can copy and paste anywhere on your site to offer customer support.

Once a customer clicks on an account he wants to chat, he is then redirected to WhatsApp app if he is on mobile or WhatsApp web if he is on desktop.
