Well there is a lot of other features but that's a good start. You can also take a look on the changelog below you'll see detailed features added in the last weeks.

Useful FAQs

Can I change the colors, fonts and images?

Yes you definitely can. Woffice has been developed from day 0 thinking about user experience and user customization. It has a powerful settings panel which allows to create your custom branded site, changing logo, images, colors, fonts and all of this never touching the code!

Can I build an Asana Alternative with Woffice?

Yes, you definitely can. We provide all the tools required to get this moved forward.

Can I use my own font in this theme?

You can upload your own fonts as well as utilize the Google fonts already included in the theme, with more being added from the Google library.

Is it permissible, both technically and ethically, to build multiple websites with the same regular theme license?

For each public domain, only one license is allowed; to use the theme on other public domains, a separate regular license must be purchased.

Can this theme be used without the page builder?

It is possible to use the theme without a page builder; content can be added with regular WordPress features. However, we suggest using Elementor Page Builder for a better experience.

Is this WordPress theme compatible with the latest version of WordPress?

Yes, Woffice is compatible with WordPress 6.X version, and BuddyPress 10.X latest version.

Are there any additional plugins I need to purchase to get the full functionality of the theme?

Everything which is related to community, project management, wiki and calendar is included in theme. We do have addons for advanced usage, we have added disclaimer in demo if a certain feature is achieved using a paid demo so that there is no confusion. You can check our addons here.

All-Round Plugins Compatibility is All You Need to Put Your Best Foot Forward!

Here is a small list of a few awesome plugins perfectly integrated with Woffice (we added custom style so it looks awesome with Woffice) :
Forum : BBpress! bbPress is forum software with a twist from the creators of WordPress. Easily setup discussion forums inside your WordPress.org powered site.

Courses & Online teaching : Learndash! Finally, a featured-packed LMS without all of the clunky set-up. Easily create and sell courses, deliver quizzes, award certificates, and download user reports. (Premium, not included in Woffice license)

Online shop : Woocommerce! Powers over 30% of all online stores. WooCommerce is now the most popular eCommerce platform on the web
Live Chat : Wisechat! Advanced chat plugin for WordPress. It requires no server, supports multiple channels, bad words filtering, appearance settings, bans and more.

Facebook login : Nextend! One click registration & login plugin for Facebook? Easy installation? Is it totally free and comes with support? Yeah!

Charts and Graphs : Visualizer! A simple, easy to use and quite powerful tool to create, manage and embed interactive charts into your WordPress posts and pages.

Approve new users : New User Approve! New User Approve allows a site administrator to approve a user before they are able to login to the site.

Premium Membership : PaidMembershipPro! Unlimited levels, recurring payments, protected member content and robust member management.

Sliders : Revolution Slider! Slider Revolution is an innovative, responsive WordPress Slider Plugin that displays your content the beautiful way. Whether it's a Slider, Carousel, Hero Scene or even a whole Front Page, the visual, drag & drop editor will let you tell your own stories in no time! (Premium, not included in Woffice license)

Albums & Video : Rtmedia! Add albums, photo, audio/video encoding, privacy, sharing, front-end uploads & more. All this works on mobile/tablets devices.

Badges : BadgeOS & Credly! BadgeOS? is a powerful free plugin to WordPress that lets you easily create achievements and issue sharable badges as your users succeed.

Files management : File Away! Upload, manage, and display files from your server directories or page attachments in stylized lists or sortable data tables.

Forms : Gravity Forms! Advanced Forms for WordPress Websites Just Don't Get Any Easier than Gravity Forms. (Premium, not included in Woffice license)

Cache : WP Super Cache! A very fast caching engine for WordPress that produces static html files.

Calendar / Events : EventON! Provide a stylish, eye-catching, and powerful calendar solution for your viewers and audience. (Premium, Included in Woffice license with 1 addon)
