Description

WooCommerce Bookings V2.1.1 WP Plugin Free Download

Allow customers to book appointments, make reservations or rent equipment without leaving your site.

Let your customers book reservations, appointments or rentals on their own – no phone calls required. Save yourself time and fill up your calendar by letting your site do the work for you.

Give your Bookings a boost

For a fully-customized experience, consider these add-ons other WooCommerce customers use with Bookings.

Take a deposit for a reservation with Deposits.

Use AutomateWoo to help improve your customer's experience, decrease cancellations, or even upsell customers after they make bookings with automated booking confirmation or completion emails.

Power up reminder emails with Follow-Ups

Sell more bookings by presenting a calendar or schedule of available slots in a page or post with Bookings Availability.

Try our free Accommodation Bookings add-on, if you have a hotel or B&B

Allow service providers to submit and manage offerings themselves using Product Vendors

Offer add-ons for services, such as an oil treatment with a massage, or limited edition merchandise with a group booking for a baseball field, using Product Add-Ons.
