### Description

Yoast SEO V22.5 WP Plugin Free Download

Yoast SEO 22.5 brings general maintenance updates across the plugin, improved guidance around best practice for taxonomies and a more effortless user experience overall. For more details about the release check out the release post for 22.5.

#### Enhancements

Prevents image formats other than JPG, GIF, PNG and WEBP to be used for the twitter:image meta tag.

Recalibrates the recommended length of the text on taxonomy pages for the text length assessment.

#### Bugfixes

Fixes an incompatibility with ES\_WP\_Query library used by the WordPress VIP Enterprise Search.

#### Other

Renames all user-facing Twitter references to X, including the X profile's sameAs schema output URL.

Adds an "AI for SEO" course card to the Academy page.

Removes the link to the now-retired Google Mobile-Friendly Test from the admin bar menu.

Renames the leiCode fields to LEI code in the plugin's settings.

Resolves a typo in the list of German transition words. Props to magnusmartin85.

Deprecates unused method is\_image\_url\_valid.
