After Effectstemplates pack for creating an energetic and cheerful YouTube channel promo, bright event opener, for branding your event or corporate office in “social media” style. Publish them on Instagram, Facebook and Snapchat. The pack includes 15 stories.

The project contains all the necessary visual effects for a vlogger: the buttons “Play”, lower thirds to name your hero, search bar with the word you want to highlight, huge letters for your stories or the different parts of the program, places for the title and your hashtags.

The templates are very convenient and flexible in usage. You can apply them for quite different topics. Set your colors with Color Control, your speed of the video, insert your text, add your brand font and music and you’ll have an intro with your own idea and atmosphere.
